Notice 2001 – no. 11

## **NOTICE**

### **Sjælsø Gruppen A/S builds new headquarters for Hydro Texaco A/S**

Hydro Texaco A/S and Sjælsø Gruppen A/S have just entered into an agreement for the building of 5,000 m<sup>2</sup> of floorage in new headquarters in Søborg. The buildings are designed by the architects Arkitektfirmaet Mangor & Nagel.

The headquarters have three floors and are designed as three cubes which are built together. The building work will commence immediately after the local plan has been adopted and the headquarters are to be ready for moving in by 1 March 2003.

The agreement with Hydro Texaco A/S covers stage 1 of the total project of about 12,000 m<sup>2</sup> of floorage amounting to approx. DKK 160 million.

The agreement supports Sjælsø Gruppen A/S' expectations of a turnover of DKK 1.1 billion, a profit before tax of DKK 180 million in 2001 and a growth rate of 15-25% in 2002.

Yours sincerely

Ib Henrik Rønje  
Managing director
