GN Store Nord – Q3 2002

This publication is available in Danish and in English. In the event of any discrepancies, the Danish version shall be the governing text.

At a meeting today, the Board of Directors of GN Store Nord approved the present Third Quarter Earnings Release 2002 for the Group. This quarterly earnings release is unaudited and has been prepared in accordance with IAS and the accounting policies applied in the Annual Report 2001.

Copenhagen, November 20, 2002

Nizens Myo Jengenm

Mogens Hugo Jørgensen

Chairman

Jørn Kildegaard President & CEO

Third quarter highlights:

- The Q3 revenues and EBIT figures of the GN business areas reflect the rationalization measures completed, the lower rate of economic growth and the declining level of investments, especially in the telecoms sector.
- Revenues were DKK 1,273 million, which is a 10% drop from the second quarter. In Q3 2001, revenues were DKK 1,682 million.
- Due to the lower market value of comparable businesses and the plunge in demand for test equipment for the telecommunication industry, intangible assets including goodwill and other acquired intangible assets in NetTest are impaired by DKK 2,938 million to DKK 120 million, while other write-downs in NetTest amount to DKK 895 million. In total, the impairment charges reduce EBITA by DKK 1,088 million and earnings after tax by DKK 3,833 million.
- EBITA fell to DKK (1,142) million in the third quarter from DKK (31) million in Q2. Adjusted for impairments, EBITA was DKK (54) million in Q3. EBITA was DKK 47 million in Q3 2001.
- Earnings before tax were DKK (4,048) million against DKK (336) million in Q2 2002 and DKK (180) million in Q3 2001. Restructuring costs were DKK 85 million.
- The Q3 cash flows from operations were DKK 58 million, as compared to DKK (41) million in Q2 2002 and DKK 194 million in Q3 2001. The added focus on cash flows reduced GN Netcom's and GN ReSound's working capital.
- Sales of headsets to the mobile market were DKK 99 million, compared to DKK 63 million in Q2. Mobile segment revenues were DKK 66 million in October, driven especially by the new Bluetooth™ headsets. Sales to call centers and offices fell by 10% in the third quarter, due to the weaker US dollar, among other things.
- The launch of Beltone's Oria in the fall and of the Canta2 in the spring has strengthened GN's position on the core hearing instrument markets. With the California production facilities now relocated to Minnesota, GN ReSound is streamlining operations in line with plans and the Q3 EBITA margin rose to more than 10%. The shutdown of production at Eindhoven, the Netherlands is accelerated and will also involve a number of administrative functions, including Beltone's brand division, which will relocate to Copenhagen on April 1, 2003.
- NetTest continues to win new GPRS orders. However, demand on NetTest's markets weakened further in the third quarter.
- As announced in 2001, it is the intention to separate NetTest from GN Store Nord. GN's management is considering a number of opportunities, including through a merger or an actual sale. Until then, NetTest will adjust to market conditions and focus on providing products and solutions, especially for mobile networks.

BLUETOOTH™ is a trademark owned by Bluetooth SIG, Inc. and is used by GN Netcom under license

GN Store Nord - Q3 2002

Outlook for 2002

- GN Store Nord retains the forecast excluding NetTest of an EBITA of not less than DKK 350 million and makes the following adjustments to the 2002 revenue forecasts for GN Netcom and GN ReSound:
 - GN Netcom projects full-year revenues of almost DKK 1.8 billion and an EBITA margin of approximately 9%.
 - GN ReSound retains its full-year revenue projection of approximately DKK 2.9 billion and an EBITA margin of 9%-10%.
- NetTest lowers its forecasts and now expects to generate full-year revenues of close to DKK 0.8 billion and an EBITA of just over DKK (1.6) billion. Earnings before tax are expected to be approximately DKK (4.7) billion. The increased loss being forecast is mainly due to the impairment charges taken as a result of the continued pressure on the market values of comparable businesses and the plunge in demand for test equipment for the telecommunication industry.
- Consolidated amortization of goodwill and other acquired intangibles is expected to amount to almost DKK 70 million in the fourth quarter. Net financial expenses are unchanged at DKK 100 million for the full year.
- Restructuring costs for the year will be increased by DKK 200 million to DKK 365 million. Restructuring costs in NetTest will be increased from DKK 150 million to DKK 200 million. The accelerated closure of the Eindhoven plant and costs of a number of minor projects will lift GN ReSound's restructuring costs from DKK 50 million to just over DKK 140 million. GN Netcom has made a DKK 22 million provision for the final relocation of production facilities to China.

Overall, GN Store Nord projects revenues of DKK 5.4-5.5 billion, an EBITA of just over DKK (1.2) billion and earnings before tax of just over DKK (4.8) billion including impairment charges of just over DKK 3.8 billion in NetTest.

Financial calendar 2003

February 27: 2002 Annual Report

Forward-looking statements

The forward-looking statements in this interim report reflect management's current expectations for certain future events and financial results. Statements regarding 2002 are, of course, subject to risks and uncertainties which may result in material deviations from the outlook set forth above. Furthermore, some of these expectations are based on assumptions regarding future events which may prove incorrect.

Factors that may cause the actual results to deviate materially from expectations include but are not limited to general economic developments and developments in the financial markets; technological developments; changes and amendments to legislation and regulations governing the Group's markets; changes in the demand for the Group's products; competition; fluctuations in sub-contractor supplies; and the integration of company acquisitions.

This interim report should not be considered an offer to sell securities in GN Store Nord.

Directors' Report

Financial results

GN Store Nord recorded revenues for the third quarter of 2002 of DKK 1,273 million (Q2 2002: DKK 1,415 million) and an EBITA of DKK (1,142) million (Q2 2001: (31) million). In Q3 2001, revenues were DKK 1,682 million and the EBITA was DKK 47 million. The slumping economic growth and declining level of investments have put revenues and earnings under pressure, especially in NetTest, whose weak order inflow is a reflection of the downturn in telecommunication investments.

Combined, GN Netcom and GN Resound generated revenues of DKK 1,114 million and an EBITA of DKK 103 million, as compared to DKK 1,163 million in revenues and DKK 89 million in EBITA in Q2 2002. In Q3 2001, revenues were DKK 1,195 million and the EBITA was DKK 101 million. The improvement from 2001 was achieved in spite of lower revenues and materialized as a result of the rationalization measures implemented by GN Netcom and GN ReSound.

Relative to the first nine months of 2001, GN Netcom and GN ReSound have reduced their overheads by DKK 113 million excluding development costs.

NetTest's revenues of DKK 151 million and EBITA of DKK (1,229) million fell short of expectations. The market is believed to have declined further in the fall of 2002, necessitating more layoffs than the previously announced reduction to 850 by the beginning of 2003. NetTest will increase restructuring costs by DKK 50 million to a to-

tal of DKK 200 million to cover relocation expenses and the layoff of a further 50 employees, among other things.

Amortization of goodwill and other intangibles was DKK 115 million in the third quarter. Restructuring costs including provisions in GN Netcom were DKK 85 million, of which DKK 19 million in GN ReSound and DKK 44 million in NetTest. At September 30, GN Netcom made a provision of DKK 22 million, including for relocation of the remaining production facilities in the United States and the UK to China.

Net financial expenses for the quarter amounted to DKK 31 million.

GN Store Nord recorded earnings before tax of DKK (4,048) million for the third quarter, and earnings after tax of DKK (4,119) million.

Balance sheet

Total assets amounted to DKK 9,211 million at September 30, 2002, against DKK 13,408 million at June 30, 2002. Goodwill and other intangibles amounted to DKK 4,964 million after impairment charges in NetTest. The amount is composed of DKK 1,016 million in GN Netcom and DKK 3,767 million in GN ReSound.

GN's inventories and trade receivables excluding NetTest fell by a total of DKK 52 million relative to June 30, 2002, but are still too high.

Shareholders' equity amounted to DKK 5,297 million at September 30, 2002, as compared to DKK 9,358 million at June 30,

2002. The decline was primarily due to the impairments in NetTest. Exchange differences caused shareholders' equity to rise by DKK 58 million relative to June 30, 2002.

Net interest-bearing debt was DKK 1,186 million at September 30, 2002 against DKK 1,096 million at June 30, 2002.

Cash flows

The Group generated cash flows from operations of DKK 58 million in the third quarter, as compared to DKK (41) million in Q2 2002 and DKK 194 million in Q3 2001.

GN excluding NetTest generated cash flows from operations of DKK 86 million in the third quarter and of DKK 191 million in the first nine months of the year on total revenues of DKK 3,443 million. In 2001, Q3 and 9M cash flows from operations were DKK 84 million and DKK (183) million, respectively, on revenues of DKK 3,719 million.

The NetTest cash flow from operations of DKK (49) million reflects the drop in both turnover and costs related to restructuring the organization.

Cash flows from investments were DKK (150) million against DKK (168) million in Q2 2002 and DKK 253 million in Q3 of 2001. Investments during the quarter were made mainly in development projects and, to a minor extent, in noncurrent assets.

Foreign currency impact

Manufacturing and selling its products on a large number of markets the world over, GN incurs costs and generates revenues in various currencies, including the US dollar and USD-related currencies. As a result, the Group is considered to have sufficient long-term competitive strength to withstand likely exchange rate movements. The impact on revenues from exchange rate developments will only have a minor impact on earnings.

At unchanged exchange rates, GN generated organic revenue growth excluding NetTest of (2)% relative to Q3 2001.

The DKK 3,833 million goodwill impairment in NetTest will increase the following GN Store Nord statement of income items:

- Variable costs by DKK 637 million as a result of inventory write-downs.
- Management and administrative costs by DKK 35 million.
- Development costs by DKK 416 million due to write-downs on development projects.

Amortization and impairment charges by DKK 2,668 million

- on goodwill DKK 2,421 million
- on other acquired intangible assets DKK 85 million
- on leasehold improvement and technical plant, etc DKK 162 million

Tax by a net amount of DKK 77 million due to a reversal of previously capitalised deferred tax.

Directors' Report

Stock Option Plans

A total of 25,500 stock options were awarded in Q3 (in the European plan). The total estimated Black & Scholes value of stock options awarded during the year was DKK 61 million at the time of award.

There were a total of 7,007,246 outstanding stock options at September 30, corresponding to 3.2% of the capital stock. These stock options had a total estimated Black & Scholes value of DKK 31 million.

No stock options were exercised during the quarter. The number of outstanding stock options was reduced by 555,177 relative to June 30, 2002 as a result of resignations.

At September 30, members of the Executive Management held 320,250 stock options at an average strike price of 76. Senior employees held 2,638,418 (strike price 92) while other employees held 4,048,578 stock options (strike price 78).

Since GN began awarding stock options to management and key employees in 1998, a total of 10,591,060 stock options have been awarded and 1,453,170 have been exercised, corresponding to 0.7% of the current capital stock. A total of 2,130,644 stock options have been cancelled due to resignations. The average strike price of outstanding options is 83.

Stock options are not awarded to members of the Board of Directors.

Shareholdings

At September 30, 2002, members of the Executive Board and the Board of Directors held 24,980 and 53,509 shares, respectively, in GN Store Nord.

Senior employees and other employees listed in the GN Great Nordic Insider Register held a total of 419,684 shares in GN Store Nord.

GN Store Nord held 8,465,889 treasury shares at September 30, 2002, corresponding to 3.9% of the capital stock.

Foreign investors hold 30% of the stock in GN Store Nord. Danish institutionals and private investors hold just over 40% and 25%, respectively, of GN Store Nord's capital stock.

GN NETCOM

Q3 revenues were DKK 434 million, which was in line with the Q2 figure. In Q3 2001, revenues were DKK 471 million.

Overall, CC&O sales (to the call center and office market) fell relative to the second quarter, due to the weaker US dollar, the summer season and the generally declining level of investments resulting from the slumping economies of both the United States and Europe. CC&O revenues from wireless products were DKK 59 million, compared to DKK 63 million in Q2.

The volume of Bluetooth headsets produced in 2002 reached 100,000 at September 30. Output will top 250,000 by the end of November. Total mobile market revenues rose to DKK 99 million, which partly reflects seasonal fluctuations. Sales to the mobile segment fell by 12% relative to Q3 2001, due to weaker sales to North American mobile operators. In spite of the economic slump, however, year-to-date mobile sales are only down by 4% relative to 2001. The output of Bluetooth products was restricted to some extent by a component shortage in Q3.

The output capacity of Bluetooth products is expected to rise to 100,000 units per month by the end of the year, consisting design-wise of three very different JABRA products and two OEM products to Motorola and Siemens. Some 90% of Q3 mobile sales were generated in North America. JABRA plans to expand its European organization in 2003, which is expected to lift the contribution to revenues of GN Netcom's European sales.

Hello Direct is gradually refocusing towards selling GN Netcom products. These represent some 30-35% of the company's DKK 335 million sales in 2002 to date. Hello Direct is expected to break even in 2002, recovering from a major loss in 2001.

As from the second quarter of 2003, all of GN Netcom's products will be manufactured in China. Transferring the remaining production facilities in the US and the UK to China will, by itself, cut annual costs by more than DKK 20 million.

GN Netcom's EBITA was DKK 34 million

against DKK 27 million in Q2 2002 and DKK 46 million in Q3 2001. The Q3 cash flow from operations was DKK 44 million against DKK 14 million in Q2 2002 and DKK 106 million in Q3 2001.

GN RESOUND

Q3 revenues were DKK 680 million against DKK 730 million in Q2 2002 and DKK 724 million in Q3 2001. At unchanged exchange rates, organic growth was (2)% relative to Q3 2001.

The market share in the United States remained at close to 11% in a contracting market with demand increasingly targeting ever cheaper digital hearing instruments. The continued expansion of the Beltone chain – it now consists of 1,280 retail outlets – and sales of Oria, Beltone's new digital device, contributed to lifting GN ReSound's total digital sales to 70% of Q3 hearing instrument revenues. From the beginning of 2003, Oria will be available in all form factors.

About 85% of revenues are generated from GN ReSound and Beltone, the two continuing brands.

The PocketAvanta was launched in Japan in June. A standard PDA containing fitting software, the PocketAvanta makes it easier to fit hearing instruments and enables dispensers to go to the customer to provide the service instead of having to do it at the clinic. The PocketAvanta will be launched in all other markets in 2003.

In October, at the UHA fair in Germany, GN ReSound launched the world's first headset for hearing instrument users. Customer demands for increased functionality and comfort require solutions and products, to which GN's headset operations have the technology to contribute.

Following the closure of the production facilities in California, the final step before all manufacturing of standard products has been relocated to China or Ireland, will be the shutdown of the production of BTE devices in Eindhoven, the Netherlands. The shutdown of production at Eindhoven will be moved ahead to Q1 2003. A decision to

Directors' Report

relocate Beltone's R&D and brand division to Copenhagen was taken and announced in November. This will strengthen the cooperation with the GN ReSound brand division and R&D department.

GN ReSound's EBITA improved to DKK 69 million in the third quarter against DKK 62 million in Q2 2002 and DKK 55 million in Q3 2001. The cash flow from operations was DKK 26 million against DKK (4) million in Q2 2002 and DKK 63 million in Q3 2001.

NETTEST

Q3 revenues were DKK 151 million against DKK 245 million in Q2 2002 and DKK 475 million in Q3 2001.

The Q3 order inflow fell to DKK 166 million against DKK 256 million in Q2 2002. The order inflow by business area was as follows: Opticals DKK 28 million; Networks DKK 81 million; and Systems DKK 57 million. Orders on hand at September 30, 2002, amounted to DKK 198 million.

In spite of the sharp drop in telecom sec-

tor investments, Systems is recording fair demand for its GPRS mobile network solutions. After more than two months of testing with satisfactory results, AT&T Wireless awarded an initial order for MasterQuest in November for managing the company's US network consisting of 20 million users. NetTest now provides test and management equipment to two of the world's three largest mobile operators, AT&T Wireless and D2 of Germany. While the US and Europe are currently the largest markets, growth in mobile networks in the Far East and China will substantially increase demand for test equipment for these markets within a reasonable time horizon.

Opticals' revenues and order inflow are a reflection of the excess capacity among manufacturers of fiber optic cabling and components. A market turnaround is not expected in the near term.

As announced in the second quarter, NetTest is laying off staff. As the order inflow weakened further in the third quarter, the staff will be reduced to approximately 800 employees instead of to 850 as previously announced. Due to the additional layoffs and the relocation to smaller premises, among other things, the year's restructuring costs will rise to DKK 200 million.

NetTest's EBITA fell to DKK (1,229) million in the third quarter (DKK (141) million before impairments) against DKK (111) million in Q2 2002 and DKK (49) million in Q3 2001. The cash flow from operations was DKK (49) million against DKK (96) million in Q2 2002 and DKK 100 million in Q3 2001.

Other Group Operations

The GN Store Nord Telegraph Company reported Q3 revenues of DKK 8 million and an EBITA of DKK 1 million.

The company is currently a party to arbitration proceedings with Telekomunikacja Polska S.A. involving the principles for traffic statistics in Poland's NSL fiber-optic telecommunications system. The outcome of the arbitration proceedings will not have a negative impact on GN's earnings.

* In both the third quarter and in the year to date figures, these items were specifically affected by impairment losses in NetTest totaling DKK 3,833 million. The impairment losses are distributed as follows:

Effect on net earnings for the period	(3,833)
Tax	(77)
EBIT - effect	(3,756)
leasehold improvements, plant, etc.)	(2,668)
Impairments (on goodwill, other intangibles acquired,	
EBITA - effect	(1,088)
Ordinary depreciation and write-downs relating to administration	(15)
Management and administrative costs	(20)
Development costs	(416)
Production costs	(637)
