- The Group's net turnover for January-June amounted to MSEK 8,011 (January-June 2002: 7,965).
- Profit after tax was MSEK $781(1,013)$.
- Earnings per share amounted to SEK 9.77 (12.67). The return on equity was 10.4 per cent (14.6).
- The operating profit was MSEK 1,244 (1,359). Holmen Paper's operating profit declined by MSEK 451 as a result of lower prices. Iggesund Paperboard's result increased by MSEK 147 primarily as a result of higher volumes.

Compared with the first quarter the result declined by MSEK 26 to MSEK 609.

- The market conditions for newsprint and magazine paper were weak during the second quarter. Holmen Paper's production has continued to be restricted. Prices were stable during the quarter but they were lower than in the previous year.

The market conditions for paperboard were stable during the quarter. Iggesund Paperboard's capacity utilisation remained high and prices were stable.

## PRESS RELEASE

## BUSINESS AREAS

| Holmen Paper | Quarter |  | January-June |  | $\begin{gathered} \hline \text { Full year } \\ 2002 \\ \hline \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2-03 | 1-03 | 2003 | 2002 |  |
| Net turnover, MSEK | 1,996 | 1,828 | 3,824 | 3,923 | 8,164 |
| Operating profit, MSEK | 197 | 186 | 383 | 834 | 1,664 |
| Operating margin, \% | 10 | 10 | 10 | 21 | 21 |
| Return on operating capital, \% | 8 | 8 | 8 | 17 | 17 |
| Production, 1,000 tonnes | 412 | 394 | 806 | 738 | 1,541 |
| Deliveries, 1,000 tonnes | 428 | 379 | 807 | 728 | 1,528 |

The market conditions for newsprint and magazine paper remained weak during the second quarter. Deliveries of newsprint to Western Europe were approximately one per cent lower than in the first half of 2002, while exports to markets outside Western Europe rose significantly. There is still excess capacity. Deliveries of SC paper to Western Europe declined by around one per cent, whilst deliveries of coated paper rose by some 3 per cent. In both product areas, exports have risen markedly, but capacity utilisation was still low.

Holmen Paper's deliveries increased in relation to the first quarter, partly for seasonal reasons. Compared with the first half of 2002 deliveries were 9 per cent higher as a consequence of higher exports to markets outside Western Europe and the effect on last year's deliveries of the replacement of a paper machine at Hallsta Paper Mill. Production capacity was not utilised to the full due to market conditions. Prices remained unchanged during the quarter. Compared with the first half of 2002 prices were on average some 10 per cent lower due to the price reduction at the beginning of the year.

The operating profit for January-June was MSEK 383 (834). The decline was largely caused by lower prices. Higher delivery volumes had a favourable effect on the result.

Compared with the first quarter of 2003, the result improved by MSEK 11 to MSEK 197.

| lggesund Paperboard | Quarter |  | January-June |  | Full year |
| :--- | ---: | ---: | ---: | ---: | ---: |
|  | $\mathbf{2 - 0 3}$ | $1-03$ | $\mathbf{2 0 0 3}$ | $\mathbf{2 0 0 2}$ | $\mathbf{2 0 0 2}$ |
| Net turnover, MSEK | $\mathbf{1 , 2 2 8}$ | 1,289 | $\mathbf{2 , 5 1 7}$ | 2,414 | 4,850 |
| Operating profit, MSEK | $\mathbf{2 4 9}$ | 274 | $\mathbf{5 2 3}$ | 376 | 818 |

| Production, paperboard, 1,000 tonnes | $\mathbf{1 2 1}$ | 122 | $\mathbf{2 4 3}$ | 221 | 458 |
| Deliveries, paperboard, 1,000 tonnes | $\mathbf{1 2 0}$ | 123 | $\mathbf{2 4 3}$ | $\mathbf{2 2 0}$ | 453 |

The market conditions for paperboard were stable during the second quarter although they were slightly weaker for recycled fibre-based paperboard and the lower quality segments of virgin fibrebased paperboard. Deliveries from West European producers of virgin fibre-based paperboard were unchanged compared with the first quarter. Deliveries were around 3 per cent up on January-June 2002 as a result of higher exports.

Iggesund Paperboard's deliveries declined slightly in relation to the first quarter. Compared with the first half of 2002 deliveries increased by 10 per cent as a consequence of higher sales to markets within and outside Western Europe. Capacity utilisation remained high and prices were stable.

The operating profit for January-June amounted to MSEK 523 (376). The improvement was mainly due to higher deliveries and lower production costs.

The result declined by MSEK 25 to MSEK 249 compared with the first quarter of 2003.

## PRESS RELEASE

| Iggesund Timber | Quarter |  | January-June |  | Full year |

| Deliveries own sawmill, $1,000 \mathrm{~m}^{3}$ | $\mathbf{4 7}$ | 49 | $\mathbf{9 6}$ | 111 | 195 |

The market for redwood sawn timber was stable during the second quarter. The operating profit for January-June was MSEK 10 (loss 8). The improvement in the result is mainly due to higher prices and lower costs. Compared with the first quarter of 2003 the result was unchanged.

| Holmen Skog | Quarter |  | January-June |  | $\begin{gathered} \hline \text { Full year } \\ 2002 \\ \hline \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2-03 | 1-03 | 2003 | 2002 |  |
| Net turnover, MSEK | 933 | 976 | 1,909 | 1,877 | 3,538 |
| of which external customers | 543 | 567 | 1,110 | 1,125 | 2,085 |
| Operating profit, MSEK | 163 | 119 | 282 | 233 | 450 |
| Wood consumption at Group's Swedish mills, $1,000 \mathrm{~m}^{8}$ | 1,020 | 1,036 | 2,056 | 1,891 | 3,908 |
| Harvesting in company forests, $1,000 \mathrm{~m}^{3}$ | 733 | 562 | 1,295 | 1,169 | 2,510 |

The operating profit for January-June was MSEK 282 (233). A higher level of harvesting in company forests, higher prices and lower harvesting costs are the main factors behind the improvement in the result. Compared with the first quarter of 2003 the result improved by MSEK 44, mainly due to a seasonally higher level of harvesting in company forests.

Holmen Skog's earnings are largely generated by the sale of wood harvested in company forests.

| Holmen Kraft | Quarter |  | January-June |  | Full year |
| :--- | ---: | ---: | ---: | ---: | ---: |
|  | $\mathbf{2 - 0 3}$ | $\mathbf{1 - 0 3}$ | $\mathbf{2 0 0 3}$ | $\mathbf{2 0 0 2}$ | $\mathbf{2 0 0 2}$ |

| of which external customers | $\mathbf{1 0 6}$ | 193 | $\mathbf{2 9 9}$ | 208 | 430 |
| Operating profit/loss, MSEK | $\mathbf{3 6}$ | 93 | $\mathbf{1 2 9}$ | 16 | -26 |
| Electric power consumption at Group's Swedish mills, GWI | $\mathbf{1 , 0 3 6}$ | $\mathbf{9 9 9}$ | $\mathbf{2 , 0 3 5}$ | $\mathbf{1 , 8 5 3}$ | 3,903 |
| Group production of electric power, GWh | $\mathbf{2 8 1}$ | 358 | $\mathbf{6 3 9}$ | 792 | $\mathbf{1 , 3 2 0}$ |

The operating profit for January-June amounted to MSEK 129 (16). The improvement is due to higher selling prices for company-generated electricity and the effects of the repurchase and consolidation of hydroelectric power assets, which was completed as of 31 December 2002. Compared with the first quarter of 2003 the result declined by MSEK 57 to MSEK 36, mainly owing to lower prices but also to lower volume.

Holmen Kraft's earnings are largely generated from the production of electricity by wholly and partly owned hydroelectric power assets. As of 31 December 2002, partner-financed hydroelectric power assets with a normal annual production of 711 GWh were repurchased and consolidated. The financing cost of these assets amounted to MSEK 164 for 2002 as a whole, which was included in Holmen Kraft's result. With effect from 2003, cost of financing the hydroelectric power assets is stated under net financial items.

## PRESS RELEASE

## NET FINANCIAL COST AND FINANCING

Net financial costs for January-June amounted to MSEK 112 (82). The increase is due to a higher level of debt.

The cash flow from current operations amounted to MSEK 1,148 and net capital expenditure to MSEK 341. A dividend of MSEK 880 was paid during the second quarter.

The Group's net financial debt amounted to MSEK 4,300 (31 December 2002: 3,808). Changes in the accounting treatment of pension liability and accrued interests had the effect of increasing the net debt by MSEK 439. The debt/equity ratio was 0.29 ( 0.25 ). The equity ratio was 55.2 per cent (56.3). The Group has an unutilised committed credit facility amounting to some MSEK 4,600 with a remaining tenor of approximately four years.

## TAX

The Group's tax cost amounted to MSEK 351 (264). The figure for 2002 includes a refund of MSEK 102 resulting from the settlement of a tax case in the company's favour.

## HEDGING OF CURRENCIES AND ELECTRICITY PRICES

The Group's hedging of foreign currency has meant that the weakening of the US dollar and sterling during the last year only had a limited impact on the consolidated result compared with previous year. Most of Holmen's currency exposure in the second half of 2003 has been hedged. In the case of 2004, some 90 per cent of the estimated flows in euro and some 40 per cent of flows in sterling have been hedged at exchange rates of 9.40 and 14.80 respectively. For 2005 just under 50 per cent of the flows in euro have been hedged at a rate of 9.40.

Holmen's mills were only affected to a limited extent by the high market price of electricity during the past half-year due to their use of fixed price contracts and hedging of electricity prices. The Group's estimated net consumption in Sweden in 2003 and 2004 has mostly been hedged. For 2005 half has been hedged and for the 2006-2011 period around a third. The hedging price for 2004 is about the same as the 2003 price paid by the industry, while the hedging level from 2005 and thereafter is 5-10 per cent higher.

## CAPITAL EXPENDITURE

The Group's capital expenditure during January-June amounted to MSEK $352(1,065)$ and related largely to improvements at existing facilities. Depreciation according to plan amounted to MSEK 583 (566).

## EMPLOYEES

The average number of employees in the Group was 4,946 (full-year 2002: 5,075)

## PARENT COMPANY

The net turnover of the parent company (Holmen AB) amounted to MSEK 6,466 (6,441). The profit after net financial items amounted to MSEK 1,021 (882) including dividends of MSEK 209 (2) paid by subsidiaries. Liquid funds amounted to MSEK 415 (31 December 2002: 534). The parent company's fixed capital expenditure (excluding shares) amounted to MSEK 5 (10).

## PRESS RELEASE

## SHARE BUYBACK

The Annual General Meeting held on 26 March 2003 mandated the Board to make decisions to acquire up to 10 per cent of the company's shares. The Board has decided to exercise this mandate. No shares have been repurchased.

## NEW ACCOUNTING PRINCIPLES

As of 1 January 2003, The Swedish Financial Accounting Standards Council's recommendation RR 29 Employee Benefits is implemented in the Group's financial statements. The change to the implementation of RR 29 means that the Group's pension liabilities, which are regarded as a financial liability in the calculation of financial ratios, were increased by MSEK 392 as of 1 January. This increase is taken direct against equity. Net after deduction of deferred tax, the Group's equity is decreased by MSEK 274.

## IMPORTANT EVENTS

- During the second quarter, 38 per cent of the shares were acquired in Llau Redmat, a recovered paper company active in the south of France. The purchase price was MSEK 28. The acquisition strengthens the sourcing of raw materials for Papelera Peninsular, Holmen Paper's Spanish newsprint mill, whose production is based on recovered paper.
- As a consequence of the weak market for coated magazine paper, the profitability of the Wargön Mill, which is part of Holmen Paper, is unsatisfactory. The previously approved closure of the sulphite pulp mill will be carried out in the autumn and some investments will be made to improve the product quality of the finished products. Over and above this an action plan has been decided on, whereby some 50 positions in addition to the 25 announced in connection with the closure of the sulphite mill will become redundant. A programme of measures to improve profitability is also being carried out at the Hallsta Paper Mill.

Stockholm 20 August 2003

Göran Lundin
President and CEO

The report has not been subject to examination by the company's auditors.
The interim report for January-September will be released on 30 October.

## PRESS RELEASE

## ACCOUNTING PRINCIPLES

This interim report is made up in accordance with all of the Swedish Financial Accounting Standards Council's recommendations that are in effect in 2003. Moreover, the Council's recommendation RR 29 "Employee Benefits" has been implemented in advance with effect from 1 January 2003. Apart from this, there have been no changes in principles having an effect on the result and financial position in relation to the principles applied in the most recently published annual report.

    Holmen is a forest products industry group with the capacity to produce 2.3 million tonnes of paper and paperboard per year. The EU countries, which account for some 85 per cent of the Group's turnover, are by far the largest market. Holmen Paper produces paper for daily newspapers, magazines, directories and advertising matter at three Swedish mills and one Spanish mill. Iggesund Paperboard produces paperboard for packaging and graphic purposes at two Swedish mills and one English mill. Iggesund Timber produces sawn timber at one Swedish sawmill. Holmen Skog manages the Group's one million hectares of forests and the annual volume harvested from company forests is some 2.5 million $\mathrm{m}^{3}$. Holmen Kraft produces in a normal year some $1,100 \mathrm{GWh}$ of electricity at wholly and partly owned hydroelectric power stations in Sweden.
